

ROSCAN ELECTRONICS

REACH Compliance Statement

Roscan Electronics Ltd. is fully aware of **UK REACH**, the Regulation, relating to the “Registration, Evaluation, Authorisation and Restriction of Chemicals”.

Roscan Electronics Ltd. supply components that are generally nominated and specified by our customers as part of their design process and as such within the meaning of REACH, Roscan Electronics Ltd. is a downstream user.

As part of our ongoing compliance commitment, Roscan Electronics Ltd. is continuously undertaking a process to identify which, if any, substances of very high concern (SVHCs), meeting the criteria set out in Article 57 of REACH and included on the REACH “Candidate List”, are contained in any of our finished products above the threshold concentration of 0.1% w/w. As a result of this process, we have received no declarations from suppliers to inform us of the presence of SVHCs, restricted substances or substances requiring authorisation and we confirm that, to the best of our knowledge, the products we currently supply do not contain any SVHCs included on the Candidate List in concentrations above 0.1 % (w/w), and that we are therefore compliant with Annexes XIV and XVII (restrictions).

- The articles we supply do not intentionally release any substances.
- This communication refers to the latest version of the ECHA Candidate List at the time the product was shipped.
- We will continue to monitor new additions to SVHC and Annex XVII and will update our compliance statement as appropriate.
- We will continue to monitor the regulation with regard BREXIT and how it may affect this statement.
