### RoHS Policy Statement

The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012 entered into force on the 2 January 2013, transposing the requirements of Directive 2011/65/EU. 1.6 The RoHS Regulations have been amended several times, including by The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (Amendment) Regulations 2019, which entered into force on 12 June 2019 and transposed the requirements of Directive (EU) 2017/2102, extending the scope of the regulations.

The EU Withdrawal Act 2018 preserves the RoHS Regulations and enables them to be amended so as to continue to function effectively now that the UK has left the EU. Accordingly, The Waste (Miscellaneous Amendments) (EU Exit) (No. 2) Regulations 2019, The Waste and Environmental Permitting Etc. (Legislative Functions and Amendment Etc.) (EU Exit) Regulations 2020, and The Hazardous Substances and Packaging (Legislative Functions and Amendment) (EU Exit) Regulations 2020 fix deficiencies in the RoHS Regulations that arose from the UK leaving the EU (such as references to EU institutions) and make specific provision for the GB market.

*Directive 2011 of the European Parliament and of the Council on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment, and The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012 (“RoHS”) [SI 2012/3032 (“RoHS”)]*

In accordance with environmental guidelines set forth by the European Union in 2006, Roscan Electronics Ltd adopts environmental policy in accordance with the RoHS (Restriction of Hazardous Substances) Directive 2011/65/EU, which prohibits the inclusion of the following substances in electronic devices or Printed Circuit Boards:

Lead (Pb) < 0.1%

Mercury (Hg) < 0.1%

Cadmium (Cd) < 0.01%

Hexavalent Chromium (CrVI) < 0.1%

Polybrominated Biphenyls (PBB) < 0.1%

Polybrominated Diphenyl Esters (PBDE) < 0.1%

Bis (2-ethylhexyl) Phthalate (DEHP) < 0.1%

Butyl Benzyl Phthalate (BBP) < 0.1%

Dibutyl Phthalate (DBP) < 0.1%

Diisobutyl Phthalate (DIBP) < 0.1%

- Roscan Electronics Ltd. provides lead-free solder products.
- Where (customer's) lawful exclusions are in place, Roscan Electronics Ltd. can continue to provide lead-based solder products.

The Board of Directors of Roscan Electronics Ltd. are fully committed to achieving best practice by conducting our activities such that we continually recognise our responsibility to the environment. We recognise that the pursuit of economic growth and a healthy environment must be closely linked, and that ecological protection and sustainable development are collective responsibilities in which governments, business, individuals and communities all have a role to play.
